- Worked with the CEO to structure the website.
- I was a team leader, leading a team of 10 junior developers.
- Integrated sub-company websites into the core website.
- Monitored and managed support for existing web applications of the company.

*July 2022 – September 2022*

ArQuants, Mumbai, Maharashtra

Web developer

- Worked on each phase of the software development life cycle
- Developed a platform for automatic trading in stock markets using user funds.
- Worked with a number of different banking API's and payment processing companies.
- Created some trading algorithms for automated stock trading.

## PROJECTS

- **Smart attendance system:** Developed an attendance system using face recognition by applying concepts of machine learning and deep learning.
- **StudentZone:** Developed a website similar to an e-commerce website for students to exchange tools used in their academics.
- **Peergrade System:** Designed and developed a console-based application where students can grade their peers' assignments and the teacher can also review the grades and can also give the grades.
- **Panacea:** A website to connect doctors and patients so that at difficult times, patients can easily find good doctors.
- **Billing system:** A website developed using the MERN stack which helps small industries to create, store and manage bills.

## EDUCATION

**2017 – 2019**

KJSSC, Mumbai, Maharashtra

HSC – 91.54 %

**2019 – Present**

KJ Somaiya college of engineering,

Mumbai, Maharashtra

B.Tech Computer engineering

CGPA – 9.6 / 10

## SKILLS

Programming languages: C, C++, Python, Java, Javascript, SQL, Solidity.

Frameworks: Django, NodeJS, ExpressJS, ReactJS, Web3.

Databases: MySQL, MongoDB.

Languages: English, Hindi, Marathi, Gujarati
